

LITTLE CAYMAN BEACH RESORT

February 7 – 14, 2009

Little Cayman is one of the world's premier dive destinations – with pristine reefs, excellent visibility and incredible diving. The Cayman Islands have strict Marine Conservation Laws and many of Little Cayman's 57 dive sites are within protected Marine Park Zones, including the legendary Bloody Bay Wall - Little Cayman's most famous dive attraction. Here, coral canyons and sand chutes lead you through into the pristine deep blue waters of the outer reef before plunging to 6000 ft. These exhilarating walls are covered with brightly hued sponges, corals and sea fans. The 80° F water is second to none when it comes to clarity and it is said that more underwater photographs are taken in the Cayman Islands than in all other Caribbean destinations. The Caymans' trademark turtles are a common sight and eagle rays, angelfish, reef sharks and grouper count among the 500 species of fish that have been documented here.

Package includes:

- 7 Nights Pool View Accommodations at the Little Cayman Beach Resort
- 17 Boat Dives with Reef Divers Located on Property
